Deadline for manuscript submissions:

31 October 2020

Message from the Guest Editors

This Special Issue aims to gather contributions addressing the link between science and policy in the operationalization of the ecosystem services concept. Possible topics to be addressed include the following:

- How can we integrate ES and biodiversity science in policy formulation processes? What models, indicators, and tools should we use?
- How can we use ES to support environmental planning and assessment processes?
- How can we navigate the ES concept in the water–ecosystems–food nexus?
- How can we scale up locally derived experience on policy instruments for ES and biodiversity conservation to national and transnational level policies?
- How can we integrate diverse sources of knowledge and multiple values to improve participation in ES assessment processes?

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
