submissions:

31 August 2020

Message from the Guest Editors

The United Nations have led the way towards a more sustainable future by setting their 2030 Agenda for Sustainable Development. Moreover, the EU has indicated the transition to Circular Economy (CE) amongst its priorities, thus showing a clear view towards sustainability. With the need to promote sustainability becoming ever more important and current in a milestone year such as 2020, many challenges may arise around how to find synergies among CE, LCT and sustainable development. This Special Issue aims at putting together the knowledge obtained so far on these issues by including case studies and literature reviews within various key economic sectors as well as at taking a glimpse of the future by identifying the key aspects and methodological challenges that such synergies may entail.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
